

VPE TUTORIAL

Memory Maker

Managing a Full Meeting Cycle

A step-by-step walkthrough for the Vice President Education

CONTENTS

What this deck covers

- Phase 1 — Pre-Meeting Planning
- Phase 2 — Reception
- Phase 3 — Live Meeting
- Phase 4 — Wrap-Up & Records
- Reference

The four phases of a meeting cycle

→ The VPE owns Phase 1 & Phase 3, supports Phase 4, stays reachable in Phase 2.

PHASE 1

Pre-Meeting Planning

T-7 to T-1 day · The VPE's main work block

Open the Agenda page

Memory Maker's home base for everything meeting-related.

- **Route** — /agenda — also reachable from the top nav under Meetings
- **Meeting selector** — Use the dropdown to pick the meeting you want to work on
- **Status group** — Shows the current meeting's status: Unpublished / Not Started / Running / Finished / Cancelled
- **Agenda table** — Lists every session row with time, role, owner, project, and validation flags

Meeting 982

#982 - Aug 04, 2026

Start

NOT STARTED

Edit

New

	SESSION	OWNER	MIN'
	OPENING		
18:55	SAA Introduction	Kyle Wei - DLI, PM2	1'
18:57	President's Address	John Zhang - PM3	2'
19:00	Toastmaster's Address	Jane Jiang - SRS, VPE	2'
19:03	Ah-Counter Introduction	Jane Jiang - SRS	1'
19:05	Grammarians Introduction	-	2'
19:08	Timer Introduction	-	1'

The /agenda page — meeting #982 (Aug 04, 2026), status: Not Started

Create a meeting from a template

Start a new meeting by filling in the date, theme, and template.

- **Click New** — Top of the agenda editor, or via the top-right menu
- **Fill the form** — Date, meeting number, title/theme, subtitle, type, media URL, template
- **Template file** — Determines the default set of agenda items (Standard Club Meeting, etc.)
- **Save** — POST /agenda/create — requires MEETING_CREATE permission

Functional Modules

Module Name	Description	Status
Core	Core system functions — always enabled.	☐
Booking	Members book meeting roles and manage waitlists.	☒
Calendar	Calendar view of upcoming and past meetings.	☒
Chatbot	AI assistant for answering club and Toastmasters questions.	☐
Club Directory	Browse and connect with other clubs in the district.	☒
Data/Slides Export	Export meeting data, slides, and reports.	☒
Journal	Personal speech log and Pathways project tracking.	☒
Lucky Draw	Random draw for Table Topics or other selections.	☒

Policies

Name	Description	Status
3-Week Policy	Hide Prepared Speaker roles from members who have spoken in the last 3 meetings.	☐

Settings → Modules — make sure 'Data/Slides Export' is on before generating slides

Build the agenda

Edit sessions inline: time, role, project, and meeting-level fields.

- **Add/remove a session** — Use the row controls at the bottom of the table
- **Reorder** — Drag the row handle, or use the up/down arrows
- **Edit start time** — Click the time cell, type 24h HH:MM — overlaps are flagged
- **Word of the Day** — Set in the top-of-page wod-display block
- **GE Style** — The ge_mode dropdown controls the General Evaluator's report format
- **Red badges** — Indicate validation problems — resolve before publishing

PANEL DISCUSSION

Meeting 982

#982 - Aug 04, 2026

Start

NOT STARTED

Edit

New

	SESSION	OWNER	MIN
	OPENING		
18:55	SAA Introduction	Kyle Wei - DLI, PM2	1'
18:57	President's Address	John Zhang - PM3	2'
19:00	Toastmaster's Address	Jane Jiang - SRS, VPE	2'
19:03	Ah-Counter Introduction	Jane Jiang - SRS	1'
19:05	Grammarians Introduction	-	2'
19:08	Timer Introduction	-	1'

The agenda table — session rows are editable inline

STEP 1.4

Add project info for prepared speeches

Prepared speech slots are flagged `Valid_for_Project = true` and need a Pathways project.

- **Click the project cell** — In the row of the prepared-speech session
- **Pick the pathway** — e.g. Dynamic Leadership, Presentation Mastery
- **Pick the project** — e.g. Level 1 — Ice Breaker
- **Add an optional title** — Used on slides and in speech records
- **If undecided** — Leave blank — update before the meeting is Started

The screenshot shows the 'Pathways Library' interface within the 'Memory Maker' app. The top navigation bar includes 'Memory Maker', 'Shanghai Leadership Toastmasters Club', 'Club No.00868941', 'Area 1, Division K, D85', 'Meetings', 'Tools', 'Club', and language options 'EN / 中文'. The main content area is titled 'Pathways Library' and features three dropdown menus: 'Path: Presentation Mastery', 'Level: Level 1', and 'Project: Ice Breaker'. Below these, the 'Ice Breaker' project details are displayed, including a row of colored buttons for different pathways (DL: 1.1, EH: 1.1, MS: 1.1, PI: 1.1, PM: 1.1, VC: 1.1). The 'Purpose' section states: 'The purpose of this project is to introduce yourself to the club and learn the basic structure of a public speech.' The 'Introduction' section states: 'Ice Breaker (required)'. The 'BEGINNING' section states: 'This project marks the beginning of your Toastmasters journey. It is your opportunity to introduce yourself to the group and share something about yourself.' The 'CULMINATION' section is currently empty.

Pathways Library — the catalog of projects you assign to speech slots

STEP 1.5

Open role booking

Publishing unlocks role booking for all members.

- **Click Publish** — In the agenda page's status group
- **Confirm the prompt** — Memory Maker reminds you that booking opens to all members
- **Status flips** — Unpublished → Not Started
- **Members see /booking** — Self-booking and waitlists become available
- **Tip** — Once published, structural changes to sessions are harder — finalise first

The screenshot shows the Memory Maker interface for Meeting 982. The top navigation bar includes the Memory Maker logo, the club name (Shanghai Leadership Toastmasters Club), club number (00868941), area (Area 1, Division K, DBS), and tabs for Meetings, Tools, and Club. The main content area features the Toastmasters logo, the meeting title "Meeting 982", and a status group with buttons for Start, NOT STARTED, Edit, and New. Below this is a table with columns for Session, Owner, and Min. The table lists the following sessions:

SESSION	OWNER	MIN
OPENING		
18:55 SAA Introduction	Kyle Wei - DL1, PM2	1'
18:57 President's Address	John Zhang - PM3	2'
19:00 Toastmaster's Address	Jane Jiang - SRS, VPE	2'
19:03 Ah-Counter Introduction	Jane Jiang - SRS	1'
19:05 Grammarian Introduction	-	2'
19:08 Timer Introduction	-	1'

Status group on the agenda — click Publish to open booking

STEP 1.6

Book or assign roles

Members self-book; you backfill empty slots and assign evaluators.

- **Member self-booking** — Members visit /booking, pick a meeting, click a slot
- **Waitlists** — Full slots show 'Join Waitlist' — auto-promote when owner cancels
- **Officer assignment** — Click the owner cell on the agenda page and pick a contact
- **Backfill 24–48h before** — Fill any empty required roles; assign evaluators to speeches
- **Tip** — Read the Planner page 1–2 days before — it shows members' intentions

Day-before checklist

Run through this list the day before the meeting.

- Agenda has no red validation badges
- Every prepared speech has a Pathways project assigned
- Every required role has an owner (or is intentionally left empty for the TME)
- Word of the Day is set; the WOD speaker knows the definition
- Slides have been generated and saved to the laptop
- The SAA has confirmed who will publish and handle voting on the night
- If all green, you are ready for Phase 3

PHASE 2

Reception

T-0 18:30 · Owned by the SAA — your job is to stay reachable

Reception & check-in

The SAA runs the door; you confirm the meeting is ready to publish.

- **Route** — /roster — SAA adds guests and members as they arrive
- **Ticket types** — Early-bird / Walk-in / Officer — order number auto-calculates
- **Live KPI** — Total attendees and revenue shown at the top in real time
- **Your only task** — Stay reachable. Don't publish/start the meeting until the SAA is ready
- **Last-minute edits** — Adding a table topic speaker or roster entry mid-meeting is supported

/roster — the SAA's check-in tool

PHASE 3

Live Meeting

T-0 19:00–21:00 · The status button is your only control surface

STEP 3.1

Publish and start the meeting

Two clicks: Publish (unpublished → not started), then Start (not started → running).

- **Publish** — Click in the status group; status flips to Not Started
- **Wait for 6:55 PM** — Start the meeting 5 minutes before call-to-order
- **Click Start** — Sets Start_Time to now; status flips to Running
- **Voting enables** — Members can submit ballots at /voting; SAA watches live count
- **Reactions enabled** — You can edit owners, add sessions, and add table topic speakers on the fly

The screenshot displays the Memory Maker interface for a Toastmasters meeting. At the top, the header includes the 'Memory Maker' logo, the club name 'Shanghai Leadership Toastmasters Club', and various navigation links. The main content area features the Toastmasters logo and the meeting title 'Meeting 982'. Below the title, there is a search bar and a status group with buttons for 'Start', 'NOT STARTED', 'Edit', and 'New'. A table lists the meeting sessions, including SAA Introduction, President's Address, Toastmaster's Address, Ah-Counter Introduction, Grammarian Introduction, and Timer Introduction, each with an owner and a duration.

	SESSION	OWNER	MIN'
OPENING			
18:55	SAA Introduction	Kyle Wei - DLI, PM2	1'
18:57	President's Address	John Zhang - PM3	2'
19:00	Toastmaster's Address	Jane Jiang - SRS, VPE	2'
19:03	Ah-Counter Introduction	Jane Jiang - SRS	1'
19:05	Grammarian Introduction	-	2'
19:08	Timer Introduction	-	1'

Status group: Publish → Start → Stop

React to in-meeting changes

Common requests and how to handle each in under a minute.

- **Add a table topic speaker** — Click the owner cell of the TT session and pick the person
- **Swap a speaker** — Click the owner cell, clear the old, pick the new — no page reload needed
- **Add a TT session on the fly** — Use the Add Session control; drag to reorder if needed
- **Forgot an evaluator** — Same as owner-edit flow — just pick from the contact list
- **All edits via** — POST /agenda/update — one round trip, validated and persisted atomically

STEP 3.3

End the meeting

Click Stop. Memory Maker seals the meeting and runs the post-meeting bookkeeping.

- **Click Stop** — Status flips to Finished
- **Vote tally** — Winners are written to the voting records
- **Waitlist cleanup** — All waitlist entries for this meeting are deleted
- **Planner sync** — booked → completed, waitlist → obsolete, draft stays draft
- **Project auto-complete** — Every project's session log is marked Completed and metadata synced

Voting Form

#982 - Aug 04, 2026

0 VOTES

Start

NPS Trend

/voting — auto-tallied when the meeting stops

PHASE 4

Wrap-Up & Records

T+0 to T+1 · Confirm votes, log speeches, archive the meeting

STEP 4.1

Confirm voting results

The SAA reads final results and runs the lucky draw; you verify the data.

- **Route** — /voting — final tallies and award winners
- **NPS** — /voting_nps — club-level satisfaction trend
- **SAA's verification list** — Confirms the right people got the right prizes
- **If something looks wrong** — Don't edit ballots directly — file an issue from /issues to preserve the audit trail

Start

NPS Trend

/voting — final tallies after Stop

STEP 4.2

Update the media URL

Attach the meeting recording so members can find it later.

- **Back on /agenda** — Edit the meeting's Media URL field in the header
- **Save** — The recording is now linked to the meeting record
- **Where it shows up** — Members see it on their Planner and in the meeting archive

/contacts — review each speaker's record

Review speech logs and Pathways

Auto-completion usually does the work; verify a few key cases.

- **/contacts** — Confirm each speaker's project and level are recorded correctly
- **Auto-completion** — Project Status flipped to Completed when the meeting was stopped
- **If a project looks wrong** — Fix it via /speech_logs and re-save — metadata re-syncs
- **Pathways progress** — Visit /pathway_library to confirm a path is selected; level progress increments automatically
- **Common bug** — Generic placeholder project (ProjectID.GENERIC) blocks the level increment — replace it

Achievements, archive, and planning

Optional wrap-up steps and the planning handoff to the next cycle.

- **Achievements** — If your club uses /achievements, award any new badges (e.g. First Ice Breaker)
- **Archive or delete** — Leave finished meetings in the archive (default), or click Delete to hard-remove
- **Delete requires** — MEETING_CREATE permission; no undo — waitlist, votes, planner entries all go with it
- **Plan ahead** — Update templates and settings if this meeting set a new precedent (see [template-manager-plan.md](#))
- **Brief the next VPE** — Pass along any quirks (custom sessions, recurring issues) before term handover

Meeting status flow

One-way transitions. To re-do a meeting, create a new one.

From Finished → Delete (only if MEETING_CREATE permission). Hard delete: votes, roster, waitlist, planner entries, and session logs all removed. No undo.

Auto-actions on Stop:

votes tallied · waitlist cleared · Planner booked→completed · projects auto-completed · contact metadata re-synced

Permissions cheat sheet

Most of this deck assumes the standard VPE role grants these.

Action	Permission
Create a meeting	MEETING_CREATE
Edit agenda (sessions, WOD, projects)	MEETING_MANAGE
Assign / remove role owners	MEETING_MANAGE
Publish / Start / Stop the meeting	MEETING_MANAGE
Delete a finished meeting	MEETING_CREATE
View all meetings (incl. unpublished)	MEETING_VIEW_ALL
Generate slides / export	MEETING_MANAGE + module 'Data/Slides Export'

If a button is greyed out, you are missing the corresponding permission. Ask a ClubAdmin or check Settings → Users.

Common pitfalls

Things that have bitten VPEs before. Avoid these.

- **Publishing too early** — Members can book roles as soon as the meeting is published. Finalise structure first.
- **Wrong Pathways project** — A wrong project pollutes the speaker's record. Ask if unsure — don't guess.
- **Clicking Stop by accident** — The meeting is sealed. The only recovery path is cloning the meeting or restoring from backup.
- **Forgetting to assign an evaluator** — Backfill the night before. Evaluators are just owners of evaluator-type sessions.
- **Editing the date after publishing** — Meeting Number auto-renames; the poster file is renamed too. Verify both after the change.
- **Generic project on a prepared speech** — ProjectID.GENERIC blocks the level increment. Replace with the real project and re-save.

Glossary

Terms used throughout this deck.

- **VPE** — Vice President Education — owns the meeting's content and Pathways tracking.
- **SAA** — Sergeant at Arms — owns the room, check-in, voting tallying, and lucky draw.
- **TME** — Toastmaster of the Evening — runs the meeting on the night.
- **WOD** — Word of the Day — the Memory Maker's traditional responsibility; used by speakers and TME.
- **Pathway** — Toastmasters' learning experience, made up of projects across multiple levels.
- **Session Log** — A row in the agenda table — one per agenda item (TME, Table Topics, Speech, Eval, etc.).
- **Planner** — A member's personal plan: which project they intend to deliver in which meeting.
- **Waitlist** — Auto-managed queue for full slots. Next person is promoted when the owner cancels.
