

Club Provisioning Guide —Hand-off Document

A friendly, step-by-step guide for the new club admin to set up their club in the system. Assumes the club admin will use the web interface (no CLI or file editing required).

Part 1: Information to Collect from the Club Admin

Before logging into the system, gather this information from the new club admin. Most of it is required; everything is needed eventually, so collect what you can now and schedule follow-ups for the rest.

A. Club Identity (Required)

Question	Example	Notes
What is your Toastmasters club number?	868941	Must be unique; assigned by Toastmasters International
What is your full club name?	Shanghai Leadership Toastmasters Club	Will appear on all agendas and reports
Do you want a short name or abbreviation for internal use?	SLTMC	Optional; helps with quick reference
What District, Division, and Area are you in?	District 85, Division K, Area K1	Used for the club info banner

B. Meeting Logistics (Required)

Question	Example
What day(s) of the week do you meet?	Every Wednesday
What start time do you typically use?	18:55 (entered as HH:MM, 24-hour format)
What is the meeting address or location (physical or virtual link)?	123 Main St, Shanghai OR https://zoom.us/j/...
Do you have a club contact phone number?	+86 138 0000 0000
What is your club website (if any)?	shanghaitm.org

C. Club Branding (Required for a polished look)

Question	Example
Do you have a club logo (PNG, JPG, or WebP)?	Square format works best; will be resized to 500×500
When was your club chartered (founded)?	2010-06-15 (YYYY-MM-DD)

D. ExComm Team (Required to finalize the team page)

Position	Question to Ask	Notes
President	Who is your current club President? (Name, email, member ID if known)	All 8 positions should be filled if possible
VPE (Vice President Education)	Who is your VPE?	
VPM (Vice President Membership)	Who is your VPM?	
VPPR (Vice President Public Relations)	Who is your VPPR?	
Secretary	Who is your Secretary?	
Treasurer	Who is your Treasurer?	e.g. "Memory Makers"
SAA (Sergeant at Arms)	Who is your SAA?	
Immediate Past President	Who is your Immediate Past President?	
Team name (optional)	Does your ExComm have a fun team name?	
Term dates	What is the start and end date of this term?	
Term code	What is the term code? (e.g. 26H1 for the first half of 2026)	Toastmasters terms are half-year (H1 = Jul-Dec, H2 = Jan-Jun)

E. Initial Admin User (Required)

Question	Example
Who will be the first club admin? (Name, email)	Kyle Wei, kyle@example.com
What username should they use to log in?	kylewei
Do you have a preferred initial password?	(They can change it after first login)

F. Feature Preferences (Optional —can be decided after exploring)

Ask the club admin which of these features they want to enable. You can skip this section and let them decide as they go.

- ☐ Booking —Members self-book roles in upcoming meetings?
- ☐ Voting —Audience votes for best speaker/evaluator/role-taker during meetings?
- ☐ Roster —Track per-meeting attendance?
- ☐ Calendar —Calendar view of meetings?
- ☐ Chatbot / AI Assistant —Anthropic-powered AI chat for the club? (Requires API key)
- ☐ Journal / Speech Logs —Track member speech projects?
- ☐ Club Directory —Show your club in the cross-club directory?
- ☐ Planner —Help members plan their role history?
- ☐ Lucky Draw —Random role picker for Table Topics?
- ☐ Upload Links —File collection for the club?
- ☐ Data / Slides Export —Export agendas to Excel / PowerPoint?
- ☐ Self Check-In —Members check themselves in via QR / link?

G. Meeting Templates (Optional)

The system comes with two default meeting templates (Keynote Speech and Panel Discussion). Ask if the club wants to use these or upload custom templates. The full list of available templates:

- Keynote Speech
 - Panel Discussion
 - Speech Marathon
 - Speech Contest
 - Debate
 - Pecha Kucha
 - Gavel Passing
 - Club Election
-

Part 2: Step-by-Step Configuration

After collecting the information above, walk the new club admin through these steps in the web interface.

Step 1: Log In & Create the Club

1. Open the app and log in as a SysAdmin (the developer will provide credentials for the initial setup).
2. Navigate to Clubs → New Club.
3. Fill in the required fields:
 - Club Number (from A)
 - Club Name (from A)
4. Click Create Club. The system creates a shell club row and copies default files (logo, slide layouts, the two default agenda templates).

 **Tip:** The new club starts with all feature modules disabled and with no session types or roles. You'll add those in the next steps.

Step 2: Fill In Club Details

1. Navigate to About Club (or Settings → About).
2. Fill in:
 - Short name, District/Division/Area (from A)
 - Meeting day, start time, address, phone, website (from B)
 - Founded date (from C)
3. Upload the club logo:
 - Click the logo area, select your PNG/JPG/WebP file.
 - The system will resize it to 500×500 and convert to WebP automatically.
4. Click Save.

 **Tip:** The club info banner (Club No. | Area | Division | District | Club Name) is automatically generated from these fields.

Step 3: Create the First Admin User

⚠ This step requires SysAdmin access —coordinate with the developer.

The developer will create the first admin user via the command line, then notify you when the account is ready. You will then:

1. Log in with the credentials provided.
2. Change your password immediately (Profile → Change Password).
3. Verify you have ClubAdmin access by navigating to Settings (you should see all tabs).

Step 4: Set Up the ExComm Team

1. Navigate to Settings → ExComm tab.
2. Click Add New Term:
 - Enter the term code (e.g. 26H1), start date, end date, and optional team name.
3. After saving, you'll see the 8 officer positions. For each, click the dropdown and select the member who fills that role.
4. Save after each assignment.

 Tip: If a member isn't in the list yet, they need to be added first via Members → Add Member.

Step 5: Enable Feature Modules

1. Navigate to Settings → Permissions tab.
2. Scroll to Functional Modules.
3. Toggle ON the modules the club wants (from section F). Core is always on.
4. Click Save.

 Tip: You can change these anytime. Start with the essentials (Booking, Voting, Roster) and add more later as the club gets comfortable.

Step 6: Review and Adjust Permissions (Optional)

1. Still in Settings → Permissions, scroll to the Permission Matrix.
2. Review the default permissions for each role (SysAdmin, ClubAdmin, Operator, Staff, Member, Guest).
3. Adjust as needed for your club's workflow.
4. Click Save.

 Tip: If you want to save the current matrix as your club's permanent default, click Save as Default. This writes a snapshot that "Reset to Default" will restore.

Step 7: Verify Everything Works

Before announcing the system to members, do a quick smoke test:

1. Create a test meeting: Go to Agenda → New, fill in the details, and create it.
2. Open the agenda: Verify the club info banner, meeting title, and date are correct.
3. Check a module (if enabled): Try booking a role, or voting, or whatever the club enabled.
4. Log out and log in as a regular member: Verify they can see the published agenda and book roles.

Quick Reference: Settings to Configure

A condensed checklist of every setting and where to configure it:

Club-Level Settings (About Club page)

- ☐ Club number, name, short name
- ☐ District, Division, Area
- ☐ Meeting day, start time
- ☐ Address, phone, website
- ☐ Logo upload
- ☐ Founded date

ExComm (Settings → ExComm)

- ☐ Current term (code, dates, team name)
- ☐ 8 officer assignments (President, VPE, VPM, VPPR, Secretary, Treasurer, SAA, Immediate Past President)

Feature Modules (Settings → Permissions → Functional Modules)

- ☐ Booking
- ☐ Voting
- ☐ Roster
- ☐ Calendar
- ☐ Chatbot
- ☐ Journal / Speech Logs
- ☐ Club Directory
- ☐ Planner
- ☐ Lucky Draw
- ☐ Upload Links
- ☐ Data / Slides Export
- ☐ Self Check-In

Permissions (Settings → Permissions → Permission Matrix)

- ☐ Review defaults for all 6 built-in roles
- ☐ Adjust as needed
- ☐ (Optional) Save as Default

Meeting Templates (Settings → Sessions / Settings → Roles)

- ☐ Review default session types (SAA Session, President Session, Toastmaster Session, etc.)
 - ☐ Review default meeting roles (President, VPE, etc.)
 - ☐ (Optional) Upload custom meeting templates (Keynote Speech, Panel Discussion, etc.)
-

Common Pitfalls

- Logo not square: A non-square logo will be letterboxed or cropped. Ask for a square version if possible.
- Club number already exists: Each club number must be unique across the entire system. Verify with Toastmasters before creating.
- ExComm term dates: Toastmasters terms are half-year. H1 = July–December, H2 = January–June. The term code format is <YY>H<1|2> (e.g. 26H1).
- Module toggles are global per club: Enabling “Voting” for the club doesn’t enable it for every meeting —each meeting must be published and started separately.

- Permissions matrix is per-club: Changes here only affect this club, not other clubs in the system.
-

Verification Checklist

After completing all steps, verify:

- ☐ The new club appears in the club list.
 - ☐ The club admin can log in and sees the Settings page.
 - ☐ The ExComm team is visible on the About Club page.
 - ☐ At least one feature module is enabled and functional.
 - ☐ A test meeting can be created and viewed.
 - ☐ A regular member can log in and see the published agenda.
-

Support

If you get stuck, contact the developer. Common issues:

- “Permission denied” errors: The user may not have the right role. Check Settings → Members.
- “Session type not found”: The club may not have session types seeded. The developer can run `flask import-data` to bulk-load them.
- Logo won’t upload: File may be too large (>2MB) or wrong format. Try a smaller PNG.
